## Comments and Recommendations

In connection with our audit of the financial statements of the Grand Traverse Fire Department – Administration Division, for the year ended December 31, 2005, we submit the following comments and recommendations. This section is intended to take the place of a separate management letter.

### General

The records were well maintained by the Fire Department's accountant. Bank accounts were reconciled monthly, journals and ledgers were properly posted, monthly reports were submitted to the Board and supporting documents and follow-up procedures were good. Your accountant's efforts in this area are commendable.

### Budgets and Procedures

Budgets were adopted and amended for the General Fund as required. The public budget hearing was held prior to formal approval of the budget as prescribed by law.

### Capital Assets

The Administration Division Fire Department owns some office equipment and a vehicle. In general, the Townships serviced by the Fire Department own and maintain their own fire stations. Most vehicles and equipment are purchased, owned and maintained by the Metro and Rural Divisions, which maintain records of their capital assets, while participating units maintain records of assets to which they have title.

### Insurance and Bonds

The Department has a determination letter indicating that its Board members are covered under the General Liability coverage of the respective entities they represent. The insurer for the Grand Traverse Fire Department – Metro Division includes other coverages for the Administration Division in Metro's policies.

### Receipting

Official pre-numbered receipts are issued when income is received. Bank deposit slips, copies of payor checks and remittance advices are kept for support, and the system appears good at the present time.

### Board Minutes

Board minutes were maintained in good order.

# **Tobin & Co.**

## Comments and Recommendations

### General Fund

For the audit year, \$218,720 of expenditures exceeded revenues of \$202,347, and the fund balance was \$47,110 at December 31, 2005.

### Other Data

After the completion of our audit, we will mail two (2) copies of this report to the State Department of Treasury.

We appreciate the courtesy extended our field auditor in the course of this examination. Your confidence is respected, and please contact us if any questions arise.

## REPORT OF INDEPENDENT AUDITOR

Grand Traverse Fire Department  
Administration Division  
Traverse City, MI 49684

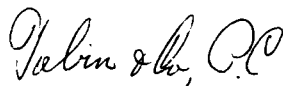

We have audited the accompanying basic financial statements of Grand Traverse Fire Department – Administration Division as of and for the year ended December 31, 2005, as listed in the Table of Contents. These financial statements are the responsibility of the Department's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Grand Traverse Fire Department – Administration Division at December 31, 2005, and the results of its operations for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The budgetary comparison schedule, as identified in the table of contents, is not a required part of the basic financial statements but is supplemental information required by the Governmental Accounting Standards Board. The supplemental information has been subjected to the auditing procedures applied to the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The accompanying financial statements do not present a Management's Discussion and Analysis, which would be an analysis of the financial performance for the year. The Governmental Accounting Standards Board has determined that this analysis is necessary to supplement, although not required to be a part of, the basic financial statements.

### Notes to Financial Statements

December 31, 2005

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

##### A. Reporting Entity

The Administration Division's basic financial statements include the accounts of all its Division operations. The criteria for including organizations within the Division's reporting entity, as set forth in GASB No. 14, "*The Financial Reporting Entity*", is financial accountability. Financial Accountability is defined as appointment of a voting majority of the component unit's board and either the ability to impose will by the primary government or the possibility that the component unit will provide a financial benefit to or impose a financial burden on the primary government.

Based on the above criteria, there are no other organizations included in these financial statements.

##### B. Basis of Presentation

The government-wide financial statements (the statement of net assets and the statement of activities) report information on all of the activities of the Department. The effect of interfund activity, within the governmental activities column, has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given program and 2) operating or capital grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other items not properly included among program revenues are reported instead as general revenues.

##### Fund Financial Statements:

Governmental funds are those funds through which most governmental functions typically are financed. The measurement focus of governmental funds is on the sources, uses and balance of current financial resources. The Department has presented the following governmental funds:

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

##### B. Basis of Presentation (Continued)

General Fund – This fund is used to account for all financial transactions not accounted for in another fund, including the general operating expenditures of the Department. Revenues are derived primarily from local distributions or grants.

##### C. Measurement Focus/Basis of Accounting

Measurement focus refers to what is being measured; basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The government-wide statements are reported using the economic resources measurement focus and the accrual basis of accounting. The economic resources measurement focus means all assets and liabilities (whether current or non-current) are included on the statement of net assets and the operating statements present increases (revenues) and decreases (expenses) in net total assets. Under the accrual basis of accounting, revenues are recognized when earned. Expenses are recognized at the time the liability is incurred.

Governmental fund financial statements are reported using the current financial resources measurement focus and are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual; i.e., when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. A one-year availability period is used for recognition of all governmental fund revenues. Expenditures are recorded when the related fund liability is incurred. However, debt service expenditures, as well as expenditures related to compensated absences are recorded only when payment is due.

The revenue susceptible to accrual are charges for service, interest income and intergovernmental revenues. All other governmental fund revenues are recognized when received.

### Notes to Financial Statements

December 31, 2005

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

##### E. Budgets

The General Fund is under formal budgetary control. Budgets shown in the financial statements for this fund was prepared on a basis not significantly different from the modified accrual basis used to reflect actual results and consist only of those amounts contained in the formal budgets approved and amended by the Board.

In the body of the financial statements, the actual and budgeted expenditures for the budgetary fund has been shown on a function basis. The approved budget for this fund was adopted on a function basis.

For budgetary purposes appropriations lapse at fiscal year end.

##### E. Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the applicable governmental column in the government-wide financial statements. All capital assets are valued at historical cost or estimated historical cost if actual historical is not available. Donated assets are valued at their fair market value on the date donated. Repairs and maintenance are recorded as expenses. Renewals and betterments are capitalized. Interest is capitalized during the construction period on property, plant and equipment.

Assets capitalized have an original cost of \$5,000 or more and over one year of useful life. Depreciation has been calculated on each class of depreciable property using the straight-line method. Estimated useful lives are as follows:

Vehicles	5 years
Equipment	5 years

##### F. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### Notes to Financial Statements

December 31, 2005

#### NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

- A. We noted no violations of legal provisions and/or contractual provision of various agreements related to financial matters.
- B. All funds had positive fund balances at December 31, 2005.
- C. Public Act 621 of 1978, Section 18, provides that a local unit shall not incur expenditures in excess of the amount appropriated. During the year ended December 31, 2005, no function exceeded its budget by without formal amendment by the Board.

#### NOTE 3 - EXPLANATION OF CERTAIN ADJUSTMENTS BETWEEN THE GOVERNMENTAL FUND BALANCE SHEET AND THE STATEMENT OF NET ASSETS

Net capital assets of \$24,687 used in governmental activities are not current financial resources and therefore are not reported in the fund.

Long-term liabilities (compensated absences of \$5,310) applicable to the Department's governmental activities are not due and payable in the current period and accordingly are not recorded as fund liabilities. All liabilities, both current and long-term, are reported in the statements of net assets.

#### NOTE 4 - EXPLANATION OF CERTAIN ADJUSTMENTS BETWEEN THE GOVERNMENTAL FUND STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES AND THE STATEMENT OF ACTIVITIES

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over the estimated useful lives and reported as depreciation expense. Depreciation exceeded capital outlay for Department equipment by \$12,744 for the year.

Compensated absence expenditures in the statement of activities required the use of \$4,323 more economic resources than those reported in the general fund.

**Tobin & Co.**Grand Traverse Fire Department – Administration DivisionNotes to Financial StatementsDecember 31, 2005**NOTE 5 - DEPOSITS WITH FINANCIAL INSTITUTIONS****A. Legal Provisions for Deposits and Investments**

Act 20, Public Acts of 1943, as amended by Act 217, Public Acts of 1982, and Act 196, Public Acts of 1998, states that the Board, by resolution, may authorize the Treasurer to invest surplus funds as follows:

1. In bonds, securities, and other direct obligations of the United States or an agency or instrumentality of the United States.
2. In certificates of deposit, savings accounts, deposit accounts, or depository receipts of a financial institution, but only if the financial institution complies with subsection (2).
3. In commercial paper rated at the time of purchase within the two highest classifications established by not less than two standard rating services and which matures not more than 270 days after date of purchase.
4. In repurchase agreements consisting of instruments defined in (1) above.
5. In bankers' acceptances of United States Banks.
6. In obligations of this state or any of its political subdivisions that at the time of purchase are rated as investment grade by not less than one standard rating service.
7. In mutual funds registered under the investment company Act of 1940 with the authority to purchase only investment vehicles that are legal for direct investment by local units of government in Michigan.

**B. Types of Deposits and Investments**

The Administration Division had \$66,905 deposited with local banks at December 31, 2005 with a carrying value of \$61,806. Interpreting the FDIC insurance coverage of \$100,000 per demand deposit account and \$100,000 per time deposit account in each depository, the Administration Division had no uninsured deposits at December 31, 2005.

#### NOTE 7 - LONG-TERM LIABILITIES AND COMPENSATED ABSENCES

Full-time leased employees earn vacation leave, which may either be taken or accumulated, with a maximum carryover to a succeeding year of 5 days (more if approved by the lessor), until paid upon termination or retirement. Leased employees earn personal leave that may either be taken or accumulated and carried over to a maximum of 24 days. Unused accumulated personal leave shall be paid to the leased employee upon termination or retirement. In accordance with generally accepted accounting principles, an accrual for compensated absences of unused vacation pay and personal leave of \$5,310 is reflected in the accompanying government-wide financial statements as a long-term liability.

#### NOTE 8 - POST RETIREMENT BENEFITS

Full-time leased employees who retire are provided health care insurance for the retiree and their spouse. This coverage is provided for retirees at a minimum age of 60. In addition, Medicare "filler" coverage is provided for all retirees and their spouses who are covered under the Medicare benefits program. The cost of these benefits will be forwarded to the Administrative Division by the lessor on a pay-as-you-go basis. Because of variations in retiree conditions and benefits usage, the present value of future benefits is not determined, but may be material.

#### NOTE 9 - INVENTORIES

The Administration Division does not maintain a substantial inventory of supplies or materials. Purchases are normally made as needed, and the items are recorded as expenses at time of purchase.
